

YWCA MAHONING VALLEY

ANNUAL REPORT 2022

EQUAL. POWERFUL. UNSTOPPABLE.

"Cooperation is the thorough conviction that nobody gets there unless everybody gets there."

- Virginia Burden

At YWCA Mahoning Valley, we know that each role is just as important as the other. We rely on each other and the skills we bring to the table to work together. In 2022, we held our staff retreat in Mill Creek Park where we took part in teambuilding and wellness activities. It takes caring for ourselves to be well enough to care for our community. We also initiated Building Blocks for Change, an organizational race equity assessment for our staff. It was important for us to let the work we do be a reflection of our internal process toward equity. Therefore, since we are always working toward positive change, we must continue to discover what that looks like within our organization. What better way to demonstrate equity and empowerment than by our own example? This is why we added a Mission Officer position at the end of the year in order to increase racial justice initiatives and the work of our mission as a whole, internally and externally. Our goal in adding this role is to complete research and increase mission impact and planning for future programs that effectively work towards eliminating racism and empowering women. YWCA Board of Directors, staff and volunteers provide so much support for daily and long-term operations. We are able to reach our goals because of the work we do collectively. Together, we are equal, powerful and unstoppable.
